Edna Toften
Norway

I work as a teacher and school counsellor at the North Cape Maritime College and Upper Secondary School. We are located in the northernmost municipality of Norway, only a few kilometres away from the North Cape. (Top of Europe)

As a school counsellor I deal with both career planning and counselling and personal/social counselling. I like my job and am very curious to learn more about the guidance systems in Ireland and other European countries.

I have always been interested in visiting new places and meeting new people. I have visited Dublin once before; in 2008 I was there with the marching band in which I play. I also like singing and am very fond of Irish and Celtic music. A lot of time is spent with my sewing machine; I have enjoyed patchwork and quilting for the last 20 years. Good books and good films are always welcome.

I am really looking forward to meeting all of you in Dublin!

Best regards

Edna
