Dear Shivaun

Thank you for your letter. I am looking forward to coming to Ireland. I have never been there before, but I have heard a lot of good things about people, beautiful country side and Dublin' s attractions.

I work in a secondary school in a small town Brežice as a school counsellor, my profession is psychology. I have 25 years of work experience.

I prepare different career orientation workshops for pupils and I also offer them individual counselling.

My goal is to support them in finding further educational goals which will fulfil their abilities, special potentials and interests, and prepare them for the future so that they will be able to manage their career.

As a school psychologist my duty is also to counsel pupils with learning difficulties and different adolescence problems they are facing, as well as their teachers and parents. I am specially interested in working with gifted and talented pupils, so I prepare different projects for them.

I have a family, a husband, who is also a psychologist and a son, who is a student, and we also have three »furry« family members: one black and one brown cocker spaniel and one adopted black cat. We all love to be in nature, I also like to travel and visit art exhibitions.

I am engaged in different philanthropic activities.

I am sending you a photo from our autumn holiday' s in Dalmatia - I found it very funny because of the position of the town in the background.
