

Mojca Luksic

Academia 2010

Mojca Luksic Slovenia

I work on a secondary school [Gimnazija Novo mesto](#) in Novo mesto as a school counsellor and as a deputy headmistress.

As a school counsellor I provide counselling on social and personal issues to pupils, their parents and teachers. I also provide vocational guidance (workshops and individual counselling).

My free time is dedicated to my daughters; I do Tai Ji and dance the Five Rhythms. I am also interested in theatre, music and eastern philosophies. I like to travel and discover new places.

I am looking forward to get fresh information about studying abroad, that I'd be able to give basic information about study possibilities in Europe and of course to meet you all Academia 2010 participants.
