

NATIONAL FORUM ON GUIDANCE – 3 December 2015

Plenary Feedback

- Benchmark the work
- Use guidelines to enhance national awareness of relevance of guidance
- EU Policy – better links
- Cross departmental focus on guidance delivered through lifespan
- QQI integration – EQVET and HFQ
- Shows – how guidance could work – role definition
- Develop of the Adult Guidance database – still at what is guidance.
- Economic outcomes? Tracking – difficult workload – formal progression tracked.
- Data gathering needs to be done? Regional/national data gathering
- CMS and Model of Guidance.
- National infrastructure for guidance interdepartmental connection and national strategy for guidance.
- Not enough resources provided to do research on the outcomes.

Two key points from Tables:

1. Implementation and disseminate strategy meaningfully included in guidance service provision.

Pre-service – NCGE, IGC – workshop for DSGC and IGC.

Input and disseminate through IGC branch.

Focus on client coming for help not just information.

2. Objective survey of guidance! (like finance – accounts!) Objectives vital.
Skills to look beyond their own practice.
