The Comprehensive Employment Strategy for People with Disabilities

- 10-year framework for addressing employment for persons with disabilities
- A whole-of-government approach to improving employment outcomes
- Strategic priorities, vision and values
- Aims to be comprehensive across
  - Types of disability
  - Public and private sectors
  - Range of responsible depts and public sector bodies
  - Supply and demand for jobs
The Comprehensive Employment Strategy for People with Disabilities

Vision, values

• People with disabilities can get a job and a rewarding career; supported to maximise potential
• Stem the flow into joblessness – school leavers; after adult onset of disability

Strategic priorities

• SP1 Build skills, capacity and independence
• SP2 Provide bridges and supports into work
• SP3 Make work pay
• SP4 Promote job retention and re-entry to work
• SP5 Provide co-ordinated and seamless support
• SP6 Engage employers
Barriers to employment

• Lower expectations on the part of family, healthcare professionals, educators, and individuals themselves
• Lower levels of educational attainment compared to the general population
• Lack of engagement on work aspirations while still in school and inconsistent provision of career guidance
• Concerns that taking up employment would leave someone financially worse off, due to loss of benefits, e.g. medical card
• Transitions between key life stages can be poorly managed
• Lack of standardised approach to provision of supports
Barriers to employment

- Attitudes of employers:
  - Lack of awareness of people with disabilities as a skills pool – the ‘business case’
  - Fear of employing someone and it ‘going wrong’
  - Lack of knowledge about providing reasonable accommodations
The education level of people with a disability is increasing. This graph shows the education level of people with disability in 2011 and 2016.

- **Degree or higher**
  - 2011: 13%
  - 2016: 16%

- **Further education**
  - 2011: 25%
  - 2016: 30%

- **Secondary education**
  - 2011: 30%
  - 2016: 35%

- **Primary or no formal education**
  - 2011: 0%
  - 2016: 5%

**Educational Attainment**

13% of people with a disability have a degree or higher qualification vs 25% of people without a disability.
Review of career guidance

Terms of Reference

• Describe and review existing career guidance tools

• Describe and review career information for post-primary/further education/higher education students and adults, currently in place

• To assess how learners form their opinions around career choice including when, who and what influences these choices is of particular importance for learners with disabilities.
Review of career guidance

• NDA advises the importance of the provision of career guidance for all people with disabilities or special educational needs within the review.

• In keeping with the national policy of mainstreaming, it is important that the whole of education provision from school to further education, training services and lifelong learning reflect the diversity of the population served.

• Career guidance should equally serve people with disabilities, across the spectrum of disability and learning style.

• career guidance experiences of learners with special educational needs in special education settings
Make informed choices regarding their career pathway

- Ensuring high quality, impartial career information, advice and guidance for young people and outlining how this can be built into the curriculum
- Understanding the use and importance of vocational profiles, how to include their development in classroom or tutorial time and how to ensure they inform a vocational curriculum
- Progressing a career pathway by using an individual education plan (IEP) to become an individual training plan (ITP) with identified career / skills attainment goals
- Developing work experiences in real work settings in line with aspirations
- Creating more work opportunities through traineeships, supported internships and apprenticeships
